

ABSTRACT

A bag for laptop computers and the like which adapted to be suspended from the shoulders of the wearer in an over-the-back relationship. The bag is adapted to incorporate several different types of waist/hip support member embodiments extending outwardly from a top longitudinal edge of the bag and defining a pair of arms adapted to engage the waist and/or hips of the wearer. A double shoulder strap assembly associated with the bag includes a central strap adapted to be removably secured to the handle of the bag.
